

Rent is due on the 3rd

June 2, 2008

REMINGTON Apartments

FATHER'S DAY

June 15

Use These Tips to Save Money on Gas

- Avoid aggressive driving (speeding, rapid acceleration, and hard braking). It wastes gas and can significantly lower highway and city gas mileage.
- Avoid high speeds. Above 60 mpg, gas mileage drops rapidly.

- When you use overdrive gearing, your car's engine speed goes down saving gas and reducing wear.
- Use cruise control on the highway.

CARPOOL

- Only use air conditioning when necessary.
- Clean our your car. Extra weight decreases gas mileage.
- Combine errands into one trip. Several short trips, each one taken from a cold start, can use twice as much fuel as one trip covering the same distance when the engine is warm.

- **Gas siphoning is becoming a more common problem with the soaring gas prices. Invest in a locking gas cap to avoid being a victim. ☹️

Use These Tips to Reduce Energy Costs

- Air dry dishes instead of using your dishwasher's drying cycle.
- Turn off your computer and monitor when not in use.
- Plug home electronics, such as TVs and DVD players, into power strips; turn the power strips off when the equipment is not in use.
- Take short showers instead of baths.
- Wash only full loads of dishes and clothes.
- Look for the ENERGY STAR® label on home appliances and products.
- Clean the lint filter in the dryer after every load to improve air circulation.
- Dry towels and heavier cottons in a separate load from lighter-weight clothes.
- Don't place lamps or TV sets near your air-conditioning thermostat.
- Keep the window coverings closed during the day to prevent solar gain.

Money Isn't All You're Saving

Top 10 Summer Vacation Destinations

Don't forget
your sunscreen!

1. Mexico
2. Hawaii
